

Important Notice Of Structural Change

May 11th, 2011

Dear Valued Customer:

You've certainly heard by now what has transpired between Sandell / Diedrich and Hohmann & Barnard. While we have maintained that the direction of these companies will not change, some of the structure will.

Because Hohmann and Barnard has a significantly larger facility located right in the heart of Chicago, we find it much more advantageous to relocate the Diedrich operation from Wisconsin to Illinois. This keeps us closer to key vendors and customers, ensuring better management of inventory and easier trucking lanes for shipping.

Larry Kotke will remain our Technical Sales Director, working from his home office in Milwaukee, WI. He will continue working with Contractors, Distributors, and Architects alike as he conducts product training sessions, demonstrations, and troubleshooting various cleaning scenarios as he has for the past 25 years.

Please feel free to contact my office directly should you have any questions regarding this or any other matter. I ask for your patience while we reorganize ourselves to be able to better service you and your customers. I thank you for your continued support, and most importantly I thank you for your business.

Regards,

Jeremy S. Douglas
